PETITION DEPARTMENT.
REG'D. NO. 2147 R
DATE 17-2-23
HONORED SIR

Sir I. Sheshadri Aiyer, M. C. J. C.

Dewan of Mysore.

The humble petition of B. Sankara Chetti, son of Madimanai Munusamy Anna, cloth merchant, Cubbon pett, Bangalore, Respectfully Showeth.

1. That the petitioner is at present a Student of the Madras College of Agriculture.
2. That he is anxious to utilise the education he received at the Agricultural College in a practical form by opening a farm in Mysore, and cultivating it with the aid of improved appliances, &c.,
3. That on having made enquires he learned that lands were available in Davanoor Hobli in Kadur Taluq. The petitioner, recently visited the Hobli, and has selected the village of Kallahalli which he considers a good field for a new enterprise. The petitioner begs to inform your honor that the land in question has been in fallow for the last forty years without paying any revenue to the State.
4. The petitioner further begs to state that he is prepared to invest a pretty good sum of money to meet the exigencies of a new venture in which the petitioner hopes to realise the fullest expectations with profit to himself and benefit to the State.
5. The petitioner, therefore, humbly begs that your honor will be pleased to grant him the land without tax for 5 years, considering that he will have to spend large sums of money for some years before any adequate return could be expected, for which act of kindness, and charity, the petitioner as in duty bound, shall ever pray.

The Petitioner begs to remain,

HONORED SIR,

YOUR MOST OBEDIENT SERVANT.

B. Sankara Chetti.

Forwarded for favourable consideration. The applicant will terminate a one year's course at this College in April next. He appears to be a man of means, who could well afford to invest money in any land handed over to him. He also seems fitted to successfully carry on any business. It is therefore hoped that the uncultivated land, mentioned by applicant, ^{will} ~~may~~ be enquired about and, if the Mysore Govt is satisfied that applicant has rightly stated facts, that the application will be favourably considered.

Sir,

In returning the petition of B.

Shankarachetty, received with official
Memo No Pet of the 27th February Last
1085
for report, I have the honor to state that

Mr Ramaswamiengar, General Assistant

Commissioner, in conjunction with the Amildar

inspected the lands of Kalballi (a beeh-

-rakh Dakla village attached to Gedde

-balli) during his recent jamabandi of

the Taluk, and is of opinion that waste

Lands Nos 6, 10, 11, 12, 16, 17, 18, 22, 23 and 26 in

to the applicant for cultivation, in spite
of some of them being included in the
Toddy grove list, reserving Nos 19, 20,
24 and 25 for Toddy groves.

* right Nos 16, 17,
18, 22 and 23
These are reported
to have been
included in
the Toddy grove

It is ascertained that none
of these lands can be irrigated by the
present existing channel, which at present
is hardly sufficient for irrigating the land
required of it. Should Shankarachetty
therefore wish to irrigate these lands, his
only plan for doing so will be by dig-
-ging private wells. The drinking water
supply of this village is also deficient,
it being obtained from a stream some
little distance off and which dries up in
the hot-weather.

I think these difficulties
as regards water should be made clear
to Shankarachetty, but in the event of
his still wishing to take up these lands there
is no objection to his doing so, as the lands

have been trying idle for the past 12 years.

Steps will be taken to grant the same after usual publication in the terms defined

in Proceedings No 3736-43 Dated 31st May
cir: 52

1892, as amended by No 4346-53 of 15th
R.F. 97-92

September 1892, and if better offers are not received, the applicant will be asked to execute the usual Mutchalika under para

18 of Land Revenue Rule, Section XX.

Should Shankara Chetty determine that the difficulties of cultivating the lands in question to be too great, I would recommend his taking up lands under the Kere Sante Tank which can be irrigated.

Vernacular correspondence ending with Kodur Amildar's No 2089, dated 3rd Instant, together with the Survey map of the Village to show the situation of lands, is sent herewith for reference, if necessary, and kind

Most Respected Sir,

With reference to your letter No. 2147 dated 22nd May 1893, requiring me to explain the scientific methods I mean to adopt in cultivating the land I have applied for, I beg. to state as follows;—

1. A better system of tillage will be introduced; the land will be thoroughly pulverised by the use of Swedish ploughs, Cultivators, harrows & rollers.

2. Farm yard manure of a superior kind will be prepared under the box system which has been found to be so very advantageous on the Saidapet farm and the land will be well manured.

3. Sufficient attention will be paid to the selection of seed, and to economise irrigation water.

Nothing more will be attempted at the outset. But in time with the growth of

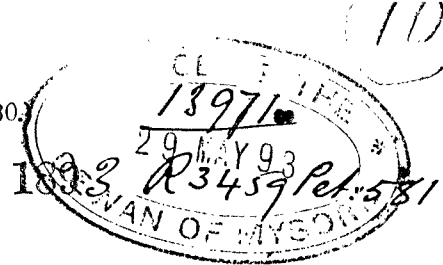

P. T. O.

growth of experience, other improvements
will be attempted.

I mean to start work with
a capital of Rs 2000. I beg that I may
